1. Comment. In comparing the "year's plan" figures for 1954 in this report with those given in the report of DIA Kompensation's plan fulfillment for August 1955, it will be noted that the amounts given in the two reports do not agree, and that those given in the report for September are actually less than those for August. It is possible that as the 1954 plan year progressed the "year's plan" figures were reduced by DIA Kompensation in line with the actual situation, i.e. that the plan was reduced to agree more closely with prospective fulfillment as the year went on. This would account for the apparent discrepancy.
